

Strategy

1. Intraday

- Initial trade around 10 – trade germany
- Lunch time 12-1 a clock priece can ofter 2
- Nothing is high or low if 1.618 of last high and low swing haven been reached**
- 3 trades a day is normal**
- Trail stop but based on fibo.**
- Opening trades tend to run 3.1618**
- Don't play 16:30 news!**
- Japan can run all day!**
- Just stick to indicies.**

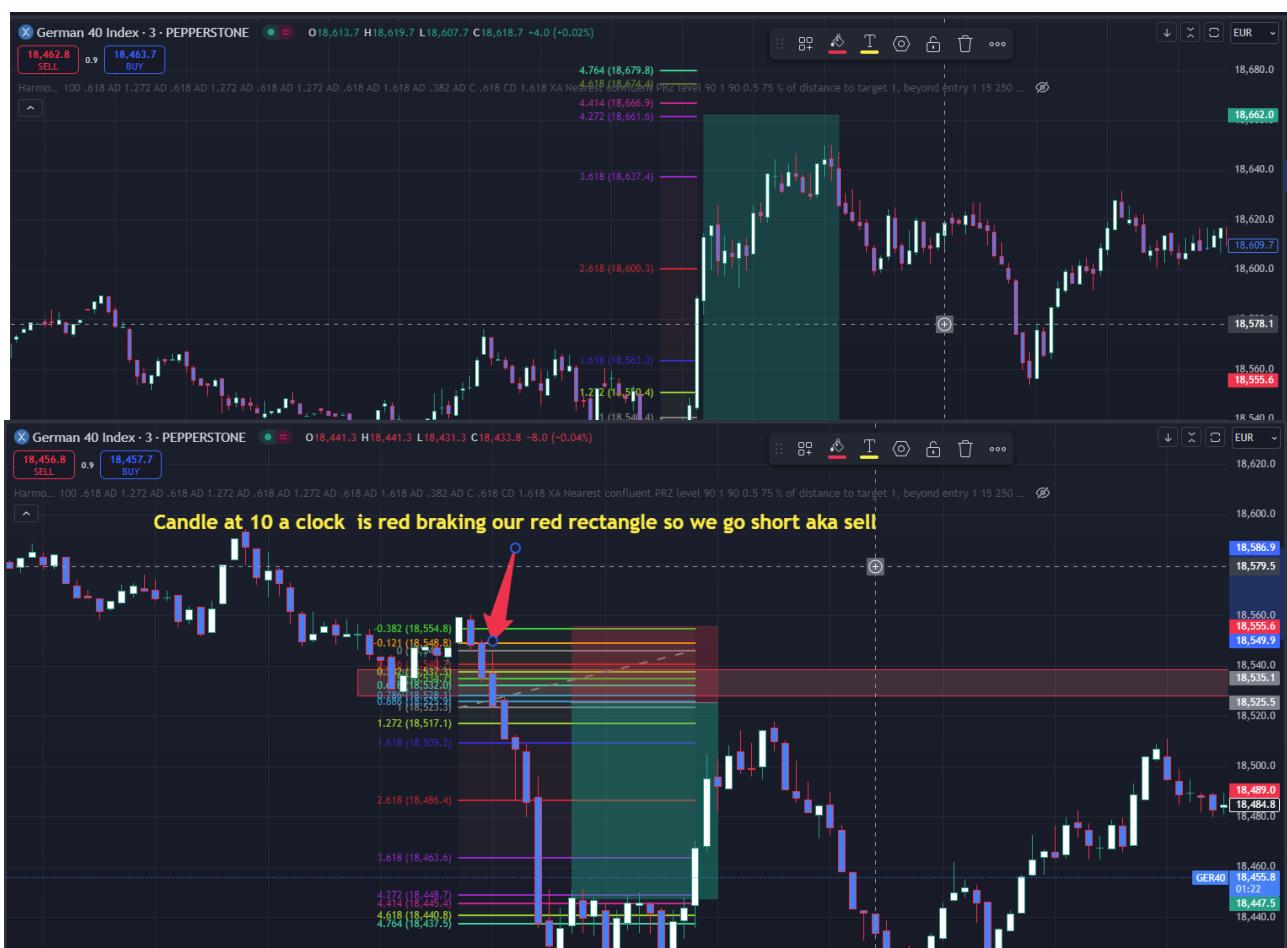

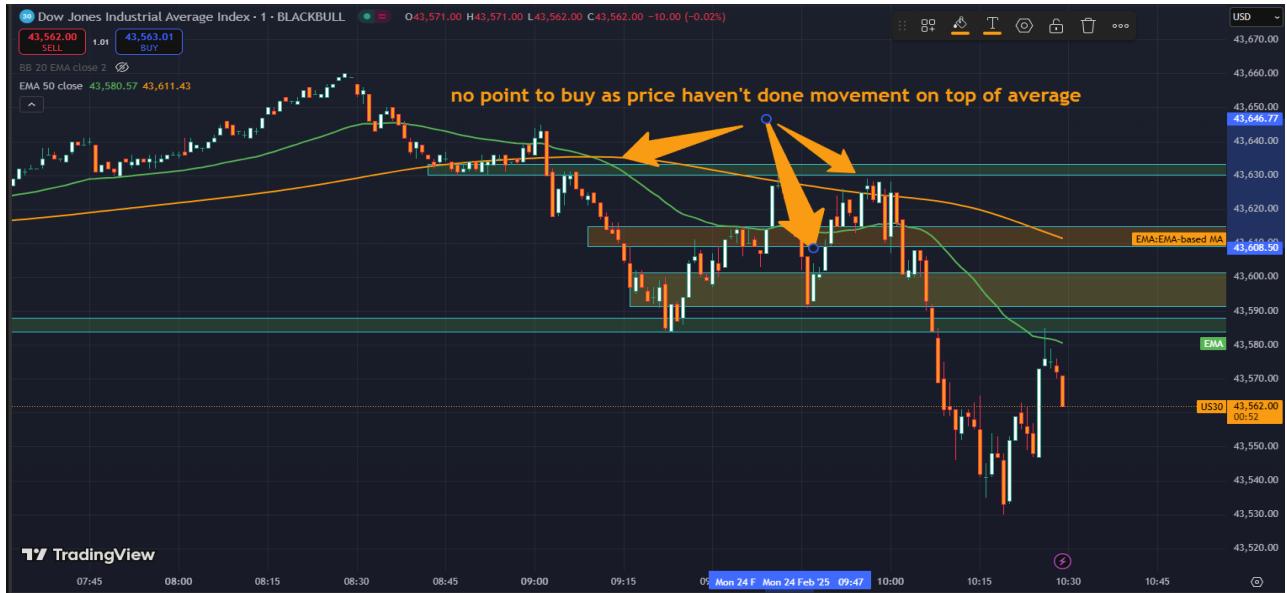

Look for change of structure (support and resistance level failure, trust gut feeling)

Pure momentum open set up

Example 2

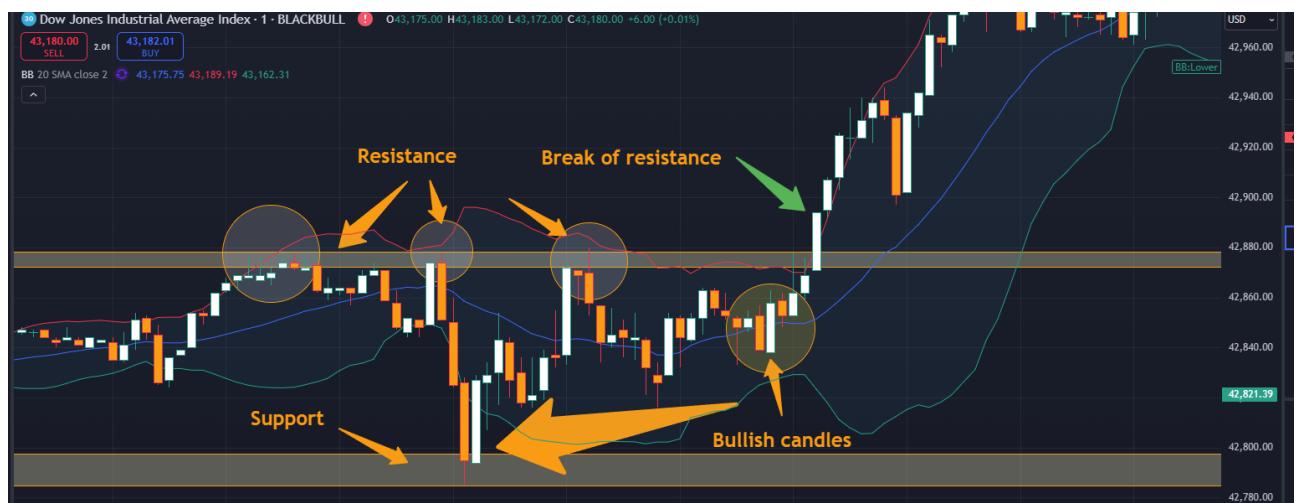

with buying need to be careful.

If first push fails like this keep the sell on till profit target.

Spring/upthrust For germany:

- 10:30 if red at 10

Afternoon strat

- If first trade loss on bullish candle wait for 17:00

Swing trading

Screening:

- **3-5 %** increase

Price action trigger:

- Bullish price action with brake of structure.
(spring)
- Trailing can be based on EMA
